

Hand riveter with rotating head 280mm TMP

Art. number: **491120**

Barcode: **3800972034983**

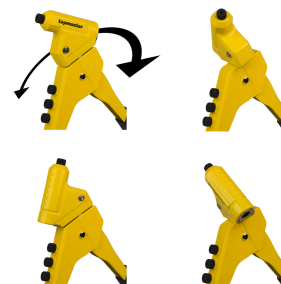

✓ A pop riveter with a rotating head is a tool that allows riveting in various materials such as metal, plastic and others

✓ This type of threader is designed with a rotating head that allows for greater maneuverability and convenience when working in confined spaces and in situations where a standard, fixed head may be inconvenient

✓ The body is made of aluminum, which gives it lightness and ergonomics

✓ The jaws of the threader are made of Cr-Mo

✓ Easy replacement of the different heads without the need for an additional key

TECHNICAL FEATURES

Parameter	Measure Unit	Value
Length (mm)	mm	280
Generation		3rd generation
Application		Rivets
